## RJK To Begin Second Phase of Drilling at Goldie Property, Churchill Uranium Update

**Kirkland Lake, Ontario – September 25, 2007** - RJK Explorations Ltd. (RJX.A: TSXV) announces that it will commence a second phase drilling program consisting of approximately 3,000 meters on its 3,760 acre Goldie Property, adjacent to the Trans-Canada Highway 50 km west of Thunder Bay, Ontario. This project is a joint-venture with GLR Resources Inc. (GRS: TSX)

The drill program will be testing the non-outcropping south zone that was discovered by shallow diamond drilling this past summer. This south zone returned several good gold grades such as 6.55 g/t over one meter as well as 1.53 g/t over ten meters (32.8 feet). (see news release dated August 14, 2007).

Additional deeper drilling as well as drilling along strike will be completed in the upcoming program. Cabo Drilling has contracted to complete the drilling which is expected to begin in approximately two weeks.

### **Churchill Uranium Property:**

RJK has relocated the area of the historic uranium / gold showing. cursory surface sampling of the original showing area has returned values of 0.37 pounds per tonne U308, 0.73 g/t gold, 0.36 pounds per tonne U308, 0.20 g/t gold and 0.21 pounds per tonne U308, 0.84 g/t gold, providing similar results to the historic reported uranium and gold values (see news release of March 09, 2007). Diamond drilling was scheduled to start immediately, using a drill rig being demobilized from Baker Lake. However, a drilling permit has been delayed while the polar bear tourist season in the Churchill area is underway. This delay in drilling will run until at least the end of November. Mr. Garry Clark P.Geol., has reviewed the contents of this news release.

### **About RJK Explorations Ltd:**

RJK Explorations Ltd. is a publicly traded junior exploration company with uranium, gold and base-metal properties. The company is taking an aggressive approach to its current portfolio of projects as well as acquiring additional exploration projects when the capital and opportunity present themselves.

*Forward Looking Statements: This news release contains certain forward-looking statements. These forward-looking statements are subject to a variety of risks and uncertainties beyond RJK's ability to control or predict which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Although RJK believes that the assumptions inherent in the forward-looking statements are reasonable, undue reliance should not be placed on these forward-looking statements.*
