RJK Begins Diamond Drill Program Goldie Gold Property

June 04, 2007.

Kirkland Lake, Ontario - RJK Explorations Ltd. (**RJX.A: TSXV**) is pleased to report that it has initiated a diamond drilling program on its 3,760 acre Goldie Gold Property which is located adjacent to the Trans-Canada Highway approximately 30 miles west of Thunder Bay, Ontario. The Goldie Gold Project is a joint-venture with GLR Resources Inc. (**GRS: TSX**)

The property will be the subject of an initial minimum 1,500 meter diamond drilling program which will test several geophysical anomalies and anomalous trends identified from the recently completed Phase IP geophysical program. Some of these anomalies and trends are directly associated with historic diamond drill intercepts and surface gold showings located over a 3 km strike length of favorable geology.

About RJK Explorations Ltd.

RJK Explorations Ltd. is a publicly traded junior exploration company with uranium, gold and base-metal properties. The company is taking an aggressive approach to its current portfolio of projects as well as acquiring additional exploration projects when the capital and opportunity present themselves.

Forward Looking Statements: This news release contains certain forward-looking statements. These forward-looking statements are subject to a variety of risks and uncertainties beyond RJK's ability to control or predict which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Although RJK believes that the assumptions inherent in the forward-looking statements are reasonable, undue reliance should not be placed on these forward-looking statements.
