RJK Completes Drilling at Dempster Lake Property, ON – Receives AEM Data for Blackwater Gold Property, BC

Kirkland Lake, Ontario, March 16, 2011: RJK Explorations Ltd. (TSX Venture: RJX.A) (“RJK” or the “Company”) wishes to report that it has completed an initial drill program on the Dempster Lake Gold Property in Northwestern Ontario. The Dempster Lake property is located within the prolific Uchi greenstone belt approximately 19km southeast of Barrick’s Golden Patricia Mine, where 1.14 million tons grading 0.58 ounces/ton (19.8 g/t Au) produced 635,000 oz Au.

The two initial drill target areas tested were the Dempster Lake Shear Zone (DLSZ) and the Arrowhead Lake Zone situated a further 2.4 kilometers to the north-west of DLSZ. Core logging and sampling is currently underway at the Company’s core logging/cutting facility in Kirkland Lake. Assay results will be reported when received.

The Company also wishes to report that it has received the final report, digital and hard copy products to the 100 meter flight line spaced Fugro heliborne magnetic and electromagnetic survey conducted over the Blackwater West and Blackwater East properties in the Blackwater Gold District of British Columbia, 100km southwest of Vanderhoof. RJK’s Blackwater claim groups are contiguous to the gold discovery of Richfield Ventures which a recent NI43-101 report shows contains an estimated indicated resource of 53.46 million tonnes of 1.06 g/t Au for 1.83 million oz. gold, with an additional 75.45 million tonnes of 0.96 g/t Au for 2.34 million oz. gold in the inferred category.

RJK is pleased to disclose that prominent structural features, magnetic highs and lows as well as several high priority conductive zones, have been outlined on each of RJK’s Blackwater Gold claim groups. A number of images of these surveys may be viewed on the company’s website.

Forward-Looking Information

This news release contains forward-looking information which is not comprised of historical facts. Forward-looking information involves risks, uncertainties and other factors that could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward-looking information in this news release includes, but is not limited to, the Company’s anticipated use of proceeds from the Offering. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to, failure to obtain final TSX Venture Exchange approval of the Offering, general business and economic uncertainties, future mineral prices and adverse market conditions, as well as those risks set out in the Company’s public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
