RJK Commences Exploration on Blackwater East and West Properties, Central BC

Kirkland Lake, Ontario, June 15, 2011: **RJK Explorations Ltd., (RJX.A: TSV)** ("RJK") is pleased to provide an update on its plans for exploration on the 13,850 hectare Blackwater East and West properties, which are contiguous to and adjoining New Gold Inc.'s 43-101 compliant multi-million ounce Davidson-Blackwater bulk-tonnage gold deposit located approximately 100 kilometers southwest of Vanderhoof, B.C.

Mineral exploration permits for linecutting and IP geophysical surveying were received by RJK and field crews have been dispatched and are now on the ground at Blackwater conducting a regional program of prospecting, sampling (soils and outcrop) and field mapping.

Condor Consultants, specialists in airborne geophysics completed a detailed interpretation of the Company's 1,526 kilometer airborne magnetic and electromagnetic geophysical survey completed last spring from which a number of targets have been identified.

Additionally, a review of the historic geochemical data taken from the Regional Drainage Sediment and Water Geochemical Data, Report 2006-4 by Geoscience BC. has identified sample sites anomalous in several geochemical elements (Au, Ag, As, Cu, Pb, Zn) associated with gold deposition within RJK's properties

A number of other junior exploration companies have also started their exploration programs in the Blackwater Gold District and RJK anticipates a steady flow of news from the camp.

"We are encouraged by the evolving target development on our underexplored Blackwater properties", said Glenn Kasner, President of RJK. "Our plan is to undertake comprehensive field programs to delineate priority drill targets for testing later this year."

Forward Looking Statements: This news release contains or refers to forward-looking information. All statements, other than statements of historical fact, that address activities, events or developments that RJK believes, expects or anticipates will or may occur in the future are forward-looking information. Such forward-looking information includes statements contained in this news release regarding discussions in respect of a potential acquisition and funding arrangement and RJK's expectations regarding same and the trading of its shares on the TSX Venture Exchange. This forward-looking information reflects the current expectations or beliefs of RJK based on information currently available to it. Forward-looking information is subject to a number of risks and uncertainties that may cause the actual results of RJK to differ materially from those discussed in the forward-looking information, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, RJK. Factors that could cause actual results or events to differ materially from current expectations include, but are not limited to: the failure of RJK to enter into an agreement in respect of such arrangement; delays in obtaining or failure to obtain any required regulatory and/or shareholder approval; and other factors. Any forward-looking information speaks only as of the date on which it is made. Although RJK believes that the assumptions inherent in the forward-looking information are reasonable, forward-looking information is not a guarantee of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.
