### **1. NATURE OF OPERATIONS**

RJK Explorations Ltd. (RJK) is incorporated under the laws of Ontario. The Company's principal business activity is that of a junior mineral exploration company with its major activity being acquisition and exploration of mineral properties. Currently the Company maintains its primary focus of exploration within Canada.

The Company does not generate sufficient cash flow from operations to adequately fund its exploration activities and has therefore relied principally upon the issuance of equity securities for financing. The Company continues to rely on upon the issuance of securities to finance its operations and exploration activities to the extent that such instruments are issuable under terms favorable to the Company. Accordingly, the Company's interim financial statements are presented on a going concern basis, which assumes that the Company will continue to realize its assets and discharge its liabilities in the normal course of operations. If such future financing is unavailable, the Company may not be able to meet its ongoing obligations, in which case the realizable values of its assets may decline materially from current estimates.

### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

They accompanying interim financial statements are prepared in accordance with Canadian generally accepted accounting principles for interim financial statements. These interim financial statements should be read in conjunction with the Company's annual audited financial statements as at and for the year ended December 31, 2005. All material adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods have been reflected. The results for the three months ended March 31, 2006 are stated utilizing the same accounting policies as those applicable to the most recent annual financial statements, but are not necessarily indicative of the results to be expected for the full year.

### **3. MINERAL PROPERTIES AND DEFERRED EXPENDITURES**

The Company enters into exploration agreements with other companies whereby the parties to the agreement may earn an interest in certain mineral properties by issuing common shares and/or making options payments and/or incurring expenditures in varying amounts by varying dates. Failure by a party to meet such requirements in certain circumstances can result in a reduction of ownership interest.

### **4. SHARE CAPITAL**

RJK's authorized share capital consists of an unlimited number of Class A Subordinate Voting Shares, 854,140 Class B Multiple Voting Shares, and an unlimited number of Class C Preference Shares without par value. The holders of the Class A Subordinate Shares are entitled to one vote per share while the holders of the Class B Multiple Voting Shares are entitled to five votes per share. The Class A Subordinate Voting shares and the Class B Multiple Voting Shares rank equally as to dividends. The Class C Preference Shares are issuable in series with the rights, privileges, restrictions, and conditions designated by the Directors at the time the particular series is created.

At any time, a holder of Class B Multiple Voting Shares may require the company to redeem, in whole or, any part of the Class B Multiple Voting Shares so held upon the payment of \$0.20 for each share redeemed. Any holder of Class B Multiple Voting Shares is entitled, at the holder's option, to convert any number of the Class B Shares into Class A Subordinate Voting Shares on a 1:1 basis. The Class B Multiple Voting Shares will be deemed to be converted into Class A Subordinate Voting Shares under a take-over bid that is at a price above the market price of the Class A Subordinate Voting Shares.

**Notes to Financial Statements**

(Unaudited)

**March 31, 2006**

**5. SHARE CAPITAL** *(Continued)*

a) The issued **Class A Subordinate Voting Share** capital is as follows:

	Number of Shares	Amount \$
Issued at December 31, 2005.	27,963,529	16,976,049
Issued for; Mineral property acquisition / payments	0	0
	<b>27,963,529</b>	<b>16,976,049</b>

b) Stock Options

RJK has a stock option plan pursuant to which options to purchase Class A Subordinate Voting Common Shares may be granted to certain officers, directors and employees. A continuity of the unexercised options to purchase Class A Subordinate Voting Common Shares is as follows:

	Number of Shares	Weighted Average Exercise Price \$
Fixed options:		
Balance at beginning of period	1,575,000	0.20
Granted during period		
Expired/Cancelled		
Exercised		
Outstanding and exercisable at end of period	<b>1,575,000</b>	

As at March 31, 2006, the weighted-average remaining contractual life of the outstanding stock options is 3.26 years.

The fair value has been determined using the Black-Scholes Option Pricing Model with the following assumptions: a risk free interest rate of 4.2%; an expected stock price volatility of 125.44%; an expected option life of 5 years; and no expectation for the payment of dividends.

Option pricing models require the input of highly subjective assumptions, including the expected volatility of the stock price. Changes in these subjective input assumptions can materially affect the fair value estimate, and therefore in management's opinion the existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

c) Warrants outstanding at March 31, 2006:

Number Outstanding	Exercise Price \$	Expiry Date
140,000	0.20	May 2006
